

App Redevelopment & Admin Portal for Virtual Tourism Company

PROJECT DETAILS

 Custom Software Development, Mobile App Development

 Nov. 2023 - Apr. 2024

 Confidential

“*Ahex Technologies was attentive to our needs and had their team available on short notice.*”

PROJECT SUMMARY

A virtual tourism company hired Ahex Technologies to redo their app and add functionalities to it while keeping it operational. The team also developed an admin portal for the client to control their app.

PROJECT FEEDBACK

Ahex Technologies delivered the app and managed the engagement effectively. The team met the client's timelines and was attentive to the project's needs. Moreover, they were always accessible to the client, and their resources' professional approach and responsiveness were highly remarkable.

The Client

Please describe your company and position.

I am the COO of TourMeApp Ltd.

Describe what your company does in a single sentence.

Provides a platform for virtual tourism in Israel

Zvi Harpaz

The Challenge

What specific goals or objectives did you hire Ahex Technologies to accomplish?

- Redo the app and add functionalities
- Adding an admin portal to control the app and the back office

CLIENT RATING

5.0

Overall Score

Quality: 5.0

Schedule: 5.0

Cost: 5.0

Would Refer: 5.0

The Approach

How did you find Ahex Technologies?

Online Search

Why did you select Ahex Technologies over others?

- Pricing fit our budget
- Good value for cost
- Company values aligned
- clear understanding of my requirements

How many teammates from Ahex Technologies were assigned to this project?

6-10 Employees

Describe the scope of work in detail. Please include a summary of key deliverables.

Ahex took the existant app with which we were not happy and re-did everything from scratch almost in order to deliver a fully functional app as per our expectations and requirements. This was done in 3 stages keeping the app operational while the development was in progress and only upon completion added a "new" version to the app/play stores.

The Outcome

What were the measurable outcomes from the project that demonstrate progress or success?

We had meetings every stage and upon completion of the scope of work that was done. On completion of a milestone, we would meet and talk about the next milestone to be worked on until completion of the project.

Describe their project management. Did they deliver items on time? How did they respond to your needs?

The schedule was not rigid on both sides. Most of the work was done within the time frame allocated for the milestone, but there were sometimes delays because of missing data that either we or Ahex had to provide.

Ahex Technologies was attentive to our needs and had their team available on short notice, sometimes even immediately, in spite of the time difference, different holidays, and cultural restrictions.

What was your primary form of communication with Ahex Technologies?

- Virtual Meeting
- Email or Messaging App

What did you find most impressive or unique about this company?

I like the professional approach and the fact that I felt like I was their only client. I got a quick response to every question (sometimes even at a very late hour one wouldn't expect an answer until the next day).

Are there any areas for improvement or something Ahex Technologies could have done differently?

I would have liked our video conferences to have been recorded and that way I could go back to them if I had any doubt but other than that I am very satisfied and would recommend them highly.
