🏷 API Development, Mobile App Development

📅 Sep. 2023 - Mar. 2024

💲 $10,000 to $49,999

" *"When a feature needed to be changed or added, the team provided the best ways to move forward."*

PROJECT SUMMARY

A healthcare company hired Ahex Technologies to develop a mobile app for iOS and Android. The team also built an admin portal that would enable the client to easily make updates to the app.

PROJECT FEEDBACK

The client was pleased with the outcome of the engagement. Ahex Technologies established a smooth workflow by being responsive and communicating updates consistently. They were also proactive in terms of coming up with innovative ideas to further improve the final product.

Ahex Technologies

The Client

Please describe your company and position.

I am the Founder & CEO of K'ept Health

### Describe what your company does in a single sentence.

Healthcare telehealth and data/analytics company.

The Challenge

What specific goals or objectives did you hire Ahex Technologies to accomplish?

• Develop mobile app and admin portal

The Approach

How did you find Ahex Technologies?

LinkedIn

Why did you select Ahex Technologies over others?

• Pricing fit our budget
• Great culture fit
• Company values aligned

How many teammates from Ahex Technologies were assigned to this project?

2-5 Employees

Describe the scope of work in detail. Please include a summary of key deliverables.

The project was to develop a native app for iOS and Android while also building an admin portal for the team to seamlessly update important features.

The Outcome

What were the measurable outcomes from the project that demonstrate progress or success?

• Meeting milestone deadlines
• Responsiveness and Communication
• Proactiveness
• Quality of product

Describe their project management. Did they deliver items on time? How did they respond to your needs?

The team was very responsive and communicated expectations, needs, and changes. They also responded to emails within 24-48

depending on the task being completed and were able to meet weekly. In addition, when a feature needed to be changed or added, the team provided the best ways to move forward.

What was your primary form of communication with Ahex Technologies?

• Virtual Meeting
• Email or Messaging App

What did you find most impressive or unique about this company?

Their proactiveness in helping create better features, improve the system functionally, and ability to be agile with the changing needs of a startup on top of the high quality of work exceeded expectations.

Are there any areas for improvement or something Ahex Technologies could have done differently?

Allocated more time for more testing.
