

Custom Software Development for IT Services Company

PROJECT DETAILS

 Custom Software Development

 Jun. 2017 - Oct. 2018

 \$10,000 to \$49,999

"They were a small team at the time, and their work was beyond their capacity."

PROJECT SUMMARY

Ahex Technologies developed a web-services platform for an IT services company. The product was an IoT platform for an end client, and they built it using PHP for the backend, MySQL, and AWS.

PROJECT FEEDBACK

Internal stakeholders were satisfied with Ahex Technologies' quality work and performance. The team met the requirements and did an excellent job. They managed the project well through weekly meetings and communicated effectively via WhatsApp and email. Overall, they went beyond their capabilities.

The Client

Introduce your business and what you do there.

I'm a consultant at Yasstch, an IT services company.

The Challenge

What challenge were you trying to address with Ahex Technologies?

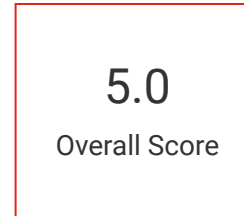

We needed help with custom software development.

 Partha Pantra
Consultant, Yasstch

 IT Services

 Detroit, Michigan

CLIENT RATING

Quality: 5.0

Schedule: 5.0

Cost: 5.0

Would Refer: 5.0

The Approach

What was the scope of their involvement?

Ahex Technologies provided custom software development. We had multiple calls to go over the design. Once that was finalized, they developed a web-services platform; it was an IoT product for one of our end clients. They used PHP for the backend, MySQL, and AWS.

What is the team composition?

We worked with six teammates, including one primary tech lead.

How did you come to work with Ahex Technologies?

I found them through LinkedIn. We had a few meetings, and I liked the team.

How much have you invested with them?

We spent \$15,000.

What is the status of this engagement?

We worked together from June 2017–October 2018.

The Outcome

What evidence can you share that demonstrates the impact of the engagement?

Ahex Technologies did an excellent job; they did everything based on our requirements.

How did Ahex Technologies perform from a project management standpoint?

We had weekly meetings. They would send their questions via WhatsApp and email.

What did you find most impressive about them?

They were a small team at the time, and their work was beyond their capacity.

Are there any areas they could improve?

No, they did a good job.
