Add Mobile Components to our existing products

 Delivery Manager, IT Services Company

 IT Services

 Hyderabad, India

CLIENT RATING

3.5

Overall Score

Quality: 3.5

Schedule: 4.0

Cost: 3.0

Would Refer: 3.5

The Approach

How did you select Ahex Technologies Pvt. Ltd.?

We know Ahex as they operate from the same building as ours

Describe the project in detail.

We had initial discussions with the full team They provided mockups for the mobile apps We did review the mockups and provided feedback They came up with updated mockups which we approved after couple of iterations which took couple of weeks Once approved, they worked on the project and delivered the Apps (Android and IOS)

What was the team composition?

4 Developers (1 Android, 1 IOS, 2 UI developers)

The Outcome

Can you share any outcomes from the project that demonstrate progress or success?

There was a bit of delay in the delivery because of some last minute changes and issues during our internal testing. But the end product was satisfactory.

How effective was the workflow between your team and theirs?

The communication between our team and the Ahex team was good.

What did you find most impressive about this company?

Most of the resources provided by Ahex we worked with are good and they were very interactive and flexible with work timing

Are there any areas for improvement?

Need to do thorough unit testing and code review before delivering it to the end customer.
