PROJECT SUMMARY

Ahex Technologies provides ongoing development services for a real estate company. The team is building a web application and an Android and iOS application for the client.

PROJECT FEEDBACK

The client has refused to disclose any results, but they commend Ahex Technologies team for their versatility and solution-oriented approach. The team is quick to respond, and they also follow Agile and Scrum methodology in executing tasks.

The Client

Please describe your company and your position there.

I am the co-founder of a real estate company. We offer a new way to buy and sell real estate.

The Challenge

For what projects/services did your company hire Ahex Technologies, and what were your goals?

For the development of a web application and two phone applications (android and IOS).

Nicolaïdes Fabrice
CEO & Co-Founder, Real Estate Company

Real estate

Paris, France

CLIENT RATING

4.5
Overall Score

Quality: 4.5

Schedule: 4.0

Cost: 5.0

Would Refer: 5.0

The Approach

How did you select this vendor and what were the deciding factors?

We were put in contact by a friend of mine. He warmly recommended AHEX to me for the quality of their teams, their work, their listening skills and their availability.

Describe the scope of work in detail, including the project steps, key deliverables, and technologies used.

They used a trello to let us know the progress of their work on a daily basis but also skype every day and the INVISION so that we could interact. In spite of the health crisis and the difference in time compared to France, we never felt any big difference except for one month when we were worried about their teams that we appreciate more and more

How many people from the vendor's team worked with you, and what were their positions?

One dev lead, 3 back developers, 2 front developers, 1 UX/UI designer for the web application. For the phone app, 1 dev lead, 2 developers.

The Outcome

Can you share any measurable outcomes of the project or general feedback about the deliverables?

No.

Describe their project management style, including communication tools and timeliness.

Agile, Scrum. Communication methodology Trello, Skype. A fairly quick response.

What did you find most impressive or unique about this company?

Their versatility and ability to find solutions have been impressive.

Are there any areas for improvement or something they could have done differently?

Diversification of UX/UI profiles.
