 Web Development

 Feb. 2020 - Apr. 2020

 \$10,000 to \$49,999

"Overall, we were satisfied with the team's work."

PROJECT SUMMARY

Ahex Technologies was hired by a fintech company to assist in the development of their website. The vendor produced a prototype design and implemented it after getting approval.

PROJECT FEEDBACK

It was a successful collaboration. The Ahex Technologies team delivered a well-designed website that met all of the client's expectations. Both sides held meetings twice a week for status updates. The client saw no room for any improvements.

The Approach

How did you select this vendor and what were the deciding factors?

We asked for quotes given our spec to multiple vendors and choose Ahex.

Describe the scope of work in detail, including the project steps, key deliverables, and technologies used.

Based on our specs provided, Ahex implemented a prototype design of the website and the full on production after our approval. The website was built primarily in HTML/CSS.

How many people from the vendor's team worked with you, and what were their positions?

I believe 2 dedicated folks, one UI and one designer.

The Outcome

Can you share any measurable outcomes of the project or general feedback about the deliverables?

Overall the project was delivered successfully as the interation #1 of the website where we were refreshing the initial content which had become stale.

Describe their project management style, including communication tools and timeliness.

We had touch base twice a week or key deliverables.

What did you find most impressive or unique about this company?

Overall, we were satisfied with the team's work.

Are there any areas for improvement or something they could have done differently?

No I am was fine with the work done.
